

A woman with long, wavy brown hair and green eyes is smiling gently. She is holding a large bouquet of fresh green herbs, including leafy greens and small white flowers, in front of her face. The background is a soft-focus outdoor scene with green foliage and sunlight filtering through the leaves.

PHILOSOPHY

From the **EXCELLENCE OF ITALIAN RESEARCH** in the field of **TRICHOLOGY**, comes **EVERYGREEN**, a line of professional **HAIRCARE** treatment products.

Thanks to its **expertise**, **EVERYGREEN** has succeeded in combining in its products:

- **FUNCTIONAL FORMULAS**, specifically aimed at tackling the diverse problems encountered with hair;
- **MINIMALIST INGREDIENTS**: every ingredient has been selected, in synergy with the others, to guarantee the best result possible in relation to the specific problem, at the same time ensuring the highest performance on the hair.
- **HIGH-TOLERABILITY FORMULAS**, also suitable for the most sensitive scalps, Because **THEY CONTAIN NO:**

SLS or SLES;
PETROLEUM JELLY;
SILICONES;
PARABEN;
ARTIFICIAL COLORANTS;
ALLERGENIC FRAGRANCES;

BASED ON PLANT EXTRACTS AND INGREDIENTS
CERTIFIED AS ORGANIC

DRY HAIR

DRY, TIRED HAIR

DRY HAIR IS A COMMON BEAUTY PROBLEM. It affects men and women of all ages. The hair appears damaged, tired and dull. In some cases it breaks. There are many different causes. The most common include a poor diet, hormone deficiencies, but above all the use of aggressive cosmetic products.

Timely action using specific treatments is key to quickly resolving this problem. That's why **EVERYGREEN** offers a complete treatment, products which cleanse without aggression, helping the hair and scalp to rediscover their physiological balance, thanks to specific hydrating and nourishing active ingredients. For visibly healthy, nourished and toned hair that's full of volume and soft to the touch.

ORGANIC SHEA BUTTER: rich in vitamins, with outstanding nourishing and antioxidant properties. Shea Butter contains a high content of unsaponifiable elements to create a protective film over the hair. This helps restore body and nourishment to dry, dehydrated and significantly damaged hair.

SOYBEAN PROTEIN AND MALLOW EXTRACT: with hydrating and antioxidant properties to restore tone, volume and shine to dry, tired hair.

ORGANIC COCONUT OIL (organically farmed): rich in vitamins and saturated fatty acids, it protects and nourishes, leaving the hair hydrated, soft and full of shine.

ANTI-OXIDANT FOR DAILY USE

FREE RADICALS are waste products which form naturally inside the body's cells, and are considered responsible for aging, as well as the majority of degenerative conditions.

Many factors can cause the generation of free radicals: pollution, active and passive smoking, UV rays and prolonged psychophysical stress are some of the main ones. To counteract the action of free radicals, it is necessary to intervene with the use of products rich in antioxidant actives. For this reason **EVERYGREEN** offers a specific **ANTIOXIDANT** treatment, recommended for daily use, with specific active ingredients.

ORGANIC POMEGRANATE OIL: an outstanding moisturiser, capable of naturally slowing down the degenerative processes of hair and scalp aging, bringing anti-free radical action and rejuvenating the hair fibre.

OAT EXTRACT: with intense soothing power, oat extract is crucial whenever the hair and scalp have been subject to stress, and their physiological balance must be restored;

SWEET ORANGE ESSENTIAL OIL: with stimulating, toning properties.

ANTI-FRIZZ SOFTENING

Any hair type can be frizzy and hard to manage, from fine to medium to thick. When the humidity level increases, the hair can become frizzy, unruly and difficult to manage. **EVERYGREEN** offers a complete treatment to hydrate the hair, leaving it soft, manageable and full of shine.

ORGANIC SESAME OIL: is rich in many functional ingredients:

- **OLEIC ACID AND LINOLEIC ACID**, a source of essential fatty acids omega 3 and 6;
- **MINERAL SALTS AND TRACE ELEMENTS** such as iron, phosphorus, magnesium, copper and calcium;
- **VITAMINS AND AMINO ACIDS.**

A true miracle cure, to restore tone and elasticity to frizzy hair.

ECHINACEA EXTRACT: often used in hair products for its notable antiseptic, anti-inflammatory and soothing properties because it enhances immune defence, especially in the case of itching or irritation, and soothes the epidermis. In this formulation, its regenerating and elasticising properties are emphasised, in synergy with the emollient substances;

KERATIN: keratin is one of the main constituents of the hair, but its integrity can be compromised by both external and endogenous factors.

Here, keratin adheres to the hair, helping to restore the capillary fibre, with visible anti-frizz effect.

PANTHENOL: for the health and wellbeing of the hair, panthenol hydrates the scalp, bringing the optimum degree of moisture to the hair, and preventing dehydration and fragility.

DAMAGED HAIR DAMAGED HAIR

It isn't uncommon for the soft, shiny hair we desire to become tired and damaged. This can be caused by many factors, from an unbalanced diet to pollution, the sun, or abuse of chemical products/treatments. In fact, the most common causes of this problem are to be found in the use of products, which are sometimes too aggressive, or in the chemical treatments used for straightening/perming or colouring/lightening the hair. Environmental factors, such as exposure to the sun or wind, can also damage the hair. In all these cases, immediate intervention is required, using specific products that restore the hair to its optimal physiological conditions and protect it against future aggression.

ORGANIC OLIVE OIL: an effective antioxidant that helps protect the scalp and hair fibre thanks to the high content of Vitamin A and Vitamin E, as well as the presence of saturated and unsaturated fatty acids, essential for softness and discipline for even the most difficult to treat hair. Suitable for all hair types, as usually it meets the very widest range of needs. Helps add softness, volume and shine, as well as repairing daily damage caused by the sun and smog, but also by hairdryers and brushes.

KERATIN: keratin is one of the main constituents of the hair, but its integrity can be compromised by both external and endogenous factors. Here, keratin helps to regenerate and protect the hair, adhering to each strand and redensifying the hair fibre.

ARGAN OIL: Rich in hydrating, nourishing substances, Argan Oil brings health and shine to the hair, from root to tip. For hydrated, glossy hair that's soft to the touch.

PLANT STEM CELL EXTRACT: actively protects against oxidative stress, helping to regenerate collagen and defending against external agents, specifically restoring the most damaged hair.

COLORED HAIR COLOURED AND TREATED HAIR

Coloured and treated hair needs specific treatments and targeted products. Chemical treatments can sometimes be too aggressive on the hair. This aggression must be balanced, using gentle but effective, ad hoc products that are nourishing and rich in antioxidants. At the same time, gently treating coloured hair is highly important to keep that colour bright and vibrant. So protecting, hydrating and brightening are a must for these products.

ORGANIC APRICOT OIL: Rich in saturated and unsaturated fatty acids, and appreciated for its protective, revitalising properties, ideal for reviving hair colour brightness;

TOMATO JUICE: rich in vitamins, mineral salts and in particular lycopene, to regenerate the hair fibre, offering effective antioxidant action;

ACHILLEA EXTRACT: boasts softening properties and protects the scalp against irritation and aggression from external agents. It also regulates sebum production and brings shine and softness;

ROYAL JELLY: a concentrate of antioxidant, energising and nourishing ingredients, such as flavonoids, vitamins (A, E, B5) and mineral salts, to restore health and vitality to the hair.

BALANCING ÉQUILIBRE

EVERYGREEN tackles the problem with a complete treatment, which combines the properties of natural extracts with the most advanced formulation research, for sebumbalancing, purifying, refreshing action.

ORGANIC ROSA MOSQUETA OIL: rich in oleic and linoleic acids and Vitamin A, for remarkable antioxidant action and the physiological re-balancing of the hair and scalp;

RICE PROTEIN AND BURDOCK EXTRACT: these substances work in synergy to amplify their remarkable soothing and sebum-regulating properties;

PIROCTONE OLAMINE: an active ingredient which helps prevent dandruff formation, counteracting the growth of the microbes responsible for this irritating phenomenon;

LEMON ESSENTIAL OIL: astringent, antiseptic, sebum-balancing.

REBALANCING SEBUM BALANCE

One of the least pleasant hair beauty problems is greasy hair. The main cause of greasy hair is excess sebum production. Normally the sebum secreted by the sebaceous glands has a very specific role, which is to protect against external stresses. In this way, it helps to preserve the hair, ensuring a healthy, glossy appearance. However, an imbalance in sebum production can lead to unpleasant greasy or oily hair. There are several causes of excess sebum production, from hereditary factors to hormone dysfunctions, or unbalanced nutrition. Effective treatment to address this problem aims at restoring the physiological balance of sebum production. This requires a non-aggressive, dermopurifying, soothing product.

ORGANIC MACADAMIA OIL: extracted from the nuts of the macadamia tree, which grows in the forests of Australia. This small round fruit contains a seed which is very rich in beneficial fatty acids, for slow-release energy. It contains high concentrations of palmitoleic acid, a strong antioxidant which also brings emollient, nutritive and soothing properties;.

BIRCH EXTRACT: rich in flavonoids, sesquiterpenic oxides, tannins (leucoanthocyanidin) and Vitamin C, Birch Extract is known for its detoxifying, rebalancing and refreshing properties.

CAPSICUM EXTRACT: rich in nutrients including group A, C and K vitamins, mineral salts such as calcium, silicon, magnesium and phosphorus and antioxidants such as tannins, carotene and histamine. On the scalp it is also a highly effective coadjuvant in rebalancing and sebum regulation.

ROSEMARY ESSENTIAL OIL: An effective astringent, that tones and purifies, with antiseptic action. This makes it ideal for use on the scalp as an active ingredient in products that help counteract greasy hair..

REBALANCING SEBUM BALANCE SHAMPOO

ORGANIC MACADAMIA OIL* (*ORGANICALLY FARMED),
BIRCH EXTRACT, CAPSICUM EXTRACT, ROSEMARY
ESSENTIAL OIL

Thanks to the effective dermopurifying, emollient and soothing action guaranteed by the complex of **ORGANIC MACADAMIA OIL*** (*organically farmed), **BIRCH EXTRACT**, **CAPSICUM EXTRACT** and **ROSEMARY ESSENTIAL OIL**, the shampoo gently cleanses the hair and scalp and regulates excessive sebum production.
