COHERENCE AND HARMONY

EVERYGREEN becomes STYLING

For hairstylists, being able to finish their work by defining it in detail is an essential requirement.

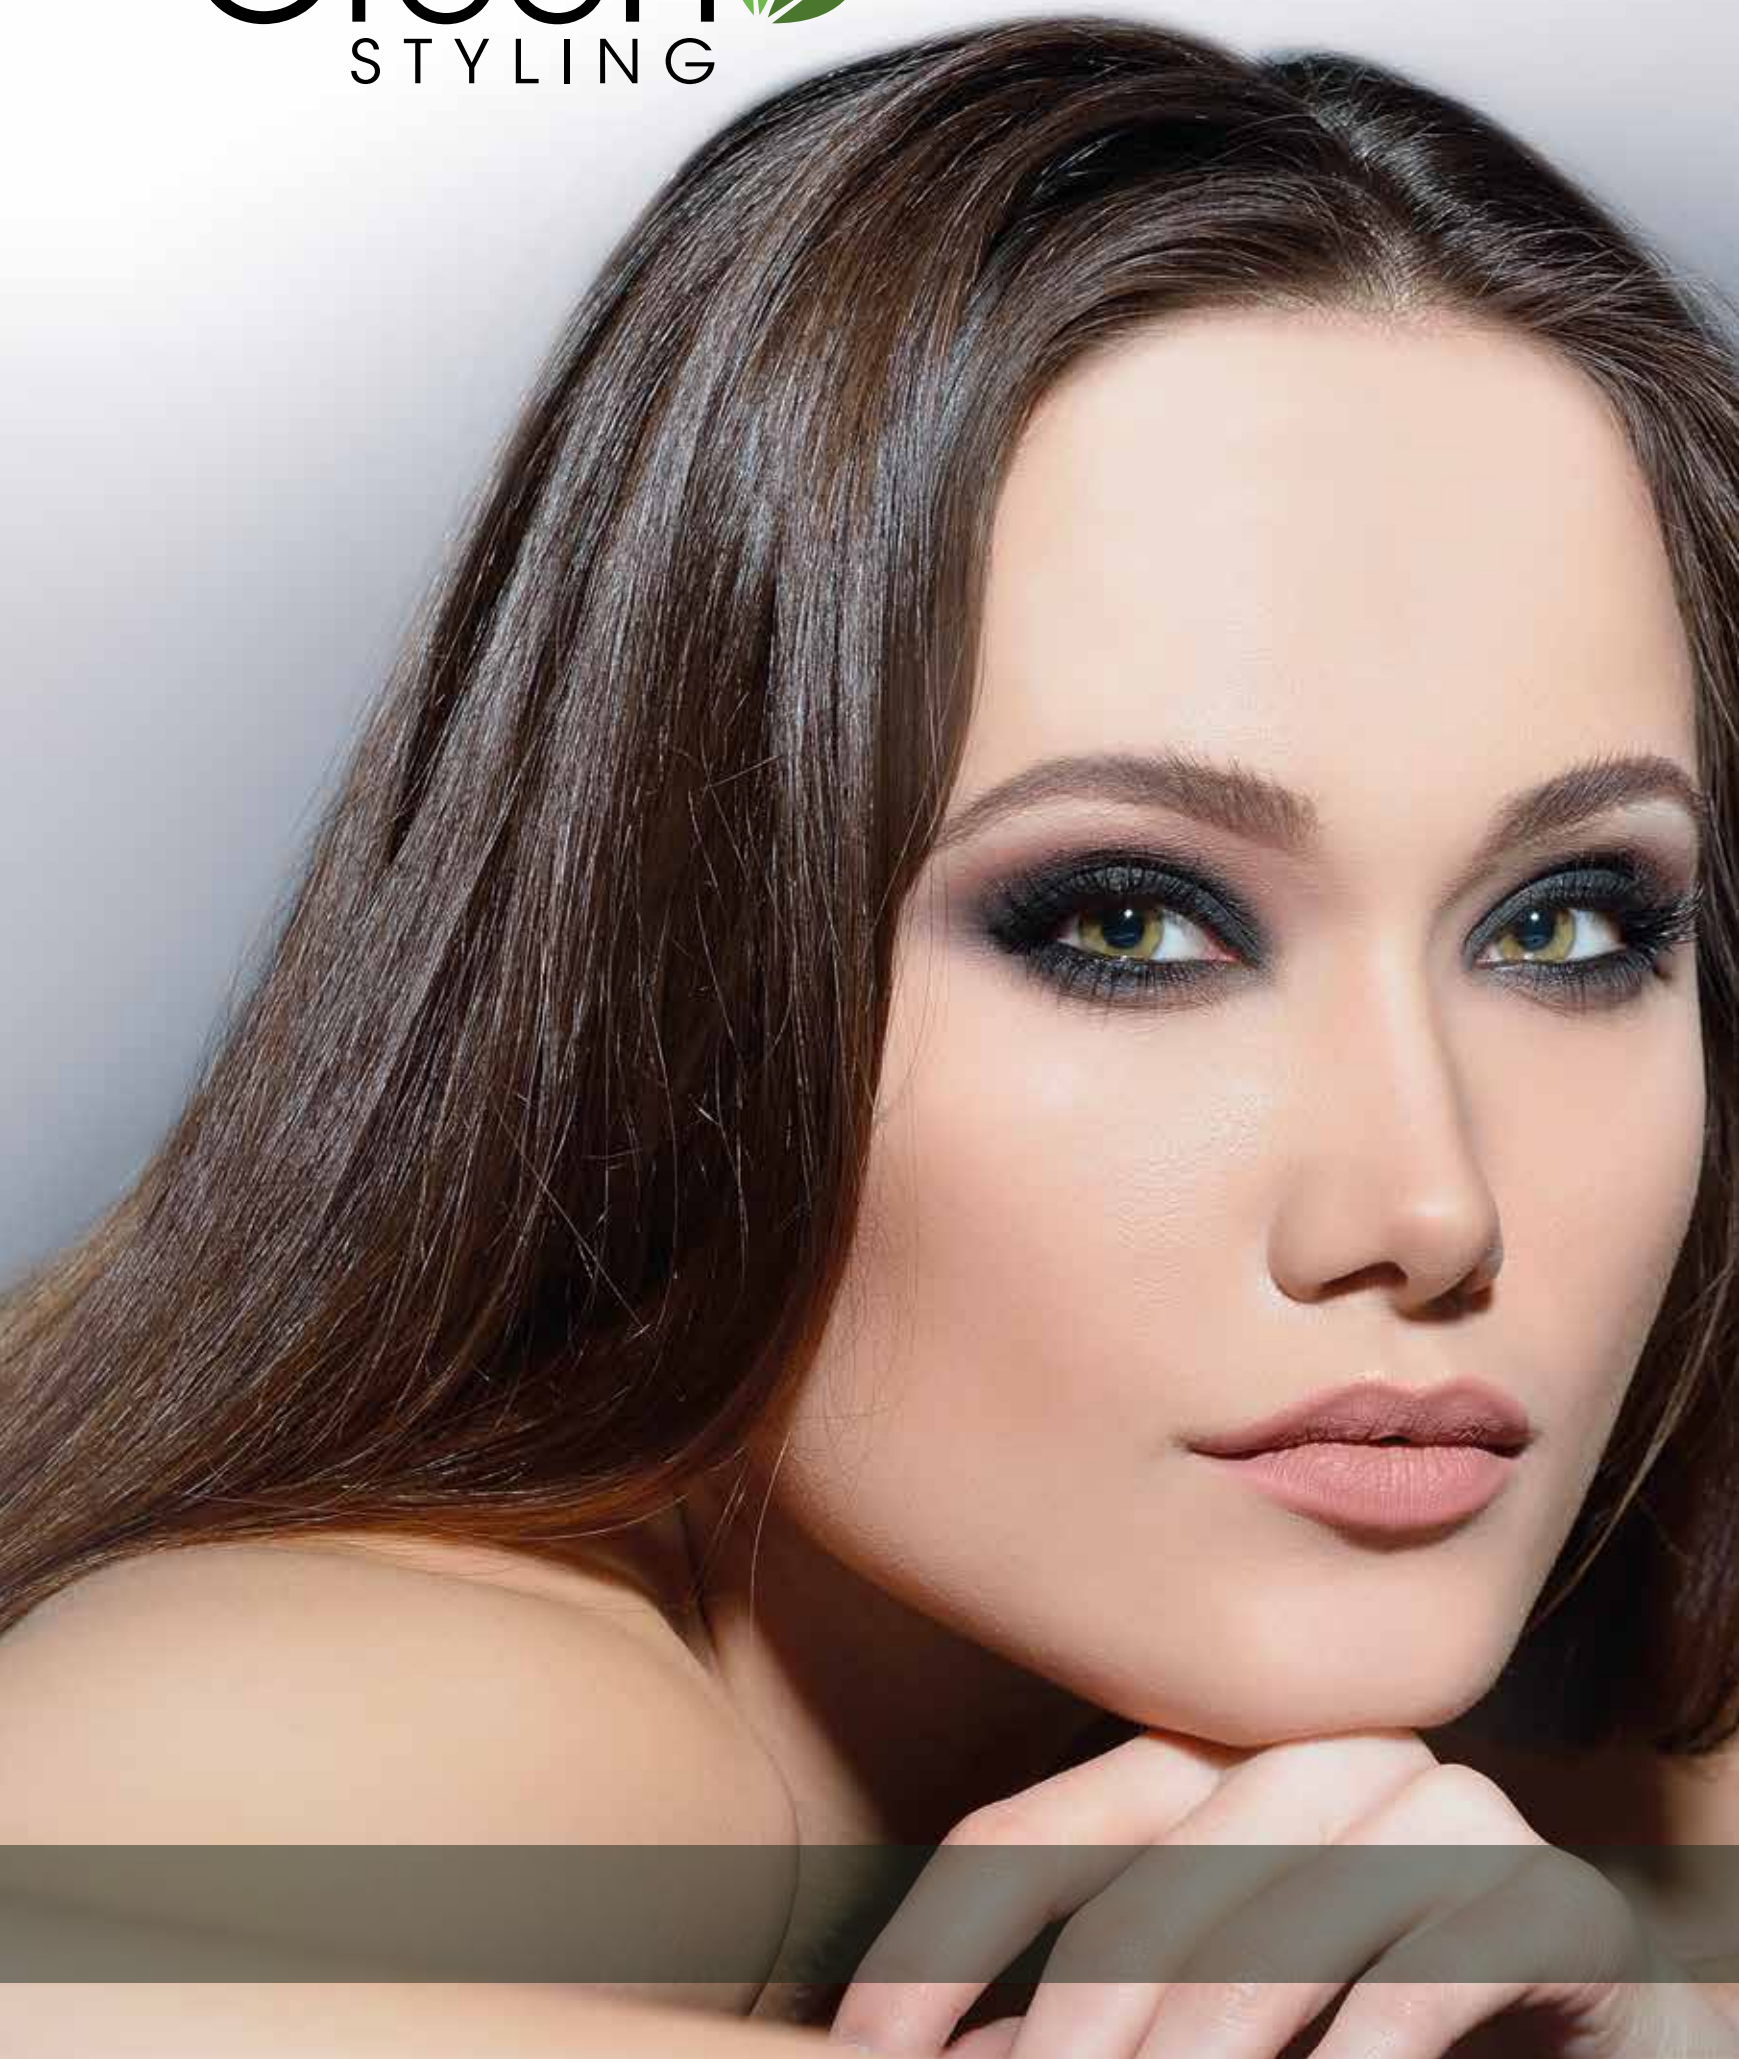

As a result, hairstylists are **constantly looking for products** that provide **HOLD** and **FLEXIBILITY**, to always **OFFER AN UP-TO-DATE LOOK**.

These products must meet the needs of the most demanding customers while being easy to use also for non-experts, such as customers who want to use these products at home to create their own style on a daily basis.

Sometimes, however, **STYLING** products can weigh down hair and can be harsh on the scalp due to daily use.
